

Dr. Samim

Paediatric & Adolescent Care

To our valued patients:

With the outbreak of the coronavirus, when booking an appointment, we ask that you PLEASE let the staff know if you have a fever or new/worsening cough. To avoid the potential spread of infection, DO NOT go to the clinic without first calling. This will help our staff to do the right things to care for you and for the other people in the clinic at that time. We can provide phone or video call to assess your situation and provide further instructions. We appreciate your help in this matter and look forward to keeping our clinic a safe place for you.
